

# COVID-19 VACCINE UPDATE

## Protocols After Vaccination

Staff and Students age 16+

### NEW GUIDANCE FOR FULLY VACCINATED INDIVIDUALS

CDC (Centers for Disease Control and Prevention) issued new guidance (2/10/21) that allows for vaccinated persons with an exposure to someone with suspected or confirmed COVID-19 (confirmed close contact) to forego quarantine if they meet the following criteria:

- Are fully vaccinated (2 weeks following receipt of the final dose)
- Have remained asymptomatic since the current COVID-19 exposure

Close contact and off-island travel quarantine protocols released on March 31, 2021 will no longer apply to fully vaccinated individuals as defined above.

Proof of COVID-19 vaccination is required. In order to exempt an individual from quarantine protocols, a copy of the CDC issued "COVID-19 Vaccination Record Card" or a VacTrAK vaccination record can be presented to your school nurse if you plan to travel off the island or if you are being considered a close contact. Additionally, staff will still need to submit a digital COVID-19 Health Screening Form anytime they are planning to travel.

At this moment in time, fully vaccinated individuals are encouraged and requested to participate in voluntary scheduled COVID-19 screenings and maintain preventative measures.

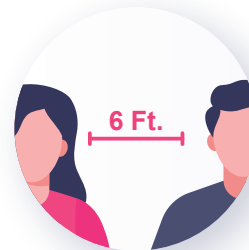

Wear a Mask

Sanitize  
Shared Surfaces

Wash  
Your Hands

Social Distance

Monitor for COVID-19 symptoms and follow-up with testing if experiencing symptoms that are unusual to you or are not related to a known medical condition.

Even if you are fully vaccinated, please remember to contact your school nurse to verify your return to school after travel and submit the digital COVID-19 Health Screening Form.
